

Molded Pulp Packagings

Cup Holder/Cup Carrier Tray

A drink carrier, sometimes also known as a cup carrier, beverage carrier or cup holder is a device used to carry multiple filled beverage cups at the same time.

Our cup holder(cup carrier) are made from paperboard,by pulp molding technology, make into paper pulp and finally shaping into cup carry tray.We've got two types cup carry tray,2-cell cup carrier and 4-cell cup carrier, customer's logo are available.

Cup Carrier keeps the drinks from falling over during transport, and distinguishes drink carriers from cafeteria trays, though both may be used to carry both drinks and food.
